

FES 100 – Introduction to Forest Biology

Week 6 – Question for October 10, 2007

On a separate sheet of paper, in the upper right corner, write your **GROUP NUMBER**, **names of all group members**, and today's date. If you did not bring notes to class, then you will need to work alone.

1. Compare and contrast the cyclic pathway with the non-cyclic pathway in photosynthesis:

Full credit is worth 5 points. Depending on the quality of your answers, you may get more, you may get less.
